Application/Control Number: 10/053,760 Page 2

Art Unit: 2186

Detailed Action

1. Claims 1-10 are presented for examination. This office action is in response to the amendment filed on 8/30/2004.

2. The drawings were received on 8/30/04. These drawings are approved by the examiner.

REASONS for ALLOWANCE

- 3. The following is an Examiner's statement of reasons for the indication of allowable subject matter: claims 1-10 are allowable over the prior art of record because an updated search does not detect the combined claimed elements as set forth in the claims 1-10. Specifically, claims are allowable over the prior art of record because none of the prior art of record teaches or fairly suggests in responsive to a peer mapping system call form the first process, mapping the additional shared memory into the address space of the second process and also the peer mapping allows a process to allocate a map shared memory in its own private address space and map the added shared memory to the address space of all other processes having access to the shared memory as described in the specification and together with combination of other claimed element as set forth in the claims. Therefore, claims 1-10 are allowable over the prior art of records.
- 4. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should
